- Task Title: OTT Clone
- Task Description: Developed a OTT Clone web.
- Steps Taken:
 1. Created the HTML structure for the Netflix clone website.
 2. Added CSS styles to enhance the layout and design.
 3. Integrated font icons for navigation and search buttons.
 4. Added movie content with images and links.
- Challenges Faced:
 1. Integrating the search functionality dynamically.
 2. Differentiating between movie content and other types of content.
 3. Ensuring compatibility and responsiveness across different devices.
 4. Handling large amounts of content efficiently.
- Solutions Implemented:
 1. Modified HTML structure to include separate classes for movie content, facilitating targeted search filtering.
 2. Employed CSS media queries and responsive design principles to ensure optimal display on various screen sizes.
 3. Optimized content loading and rendering techniques to enhance performance and user experience.
- Learnings:
 1. Enhanced proficiency in JavaScript for dynamic web page interactions.
 2. Improved understanding of HTML and CSS for structuring and styling web content.
 3. Acquired knowledge in responsive design principles for creating adaptable layouts.
 4. Developed problem-solving skills in addressing challenges related to web development tasks.
- Project Update: Task Pending.
